The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/678,525	Applicant(s) FORMAN ET AL.	
	Examiner CATHERINE N. WITCZAK	Art Unit 3767	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims rejected under 35 U.S.C. 102(b) as being anticipated by Macoviak et al (US 6,508,777). Macoviak et al disclose in Figure 19 a catheter for delivering angiogenic agents to an isolated biological space comprising an inner (1915) and outer (1917) catheter having deployable support means/sealing means (1997 and 1996) disposed on both the inner and outer catheters which are both in communication (through 1992 and 1923) with the lumens of the catheters, wherein the inner catheter shaft has a port (1995) thereon distal the first balloon.

Response to Arguments

2. Applicant's arguments, see Response, filed 7/18/2008, with respect to objection to the specification, priority, and drawings, as well as the 112th rejection have been fully considered and are persuasive. The objection of the specification, priority, and drawings, as well as the 112th rejection have been withdrawn.

3. Applicant's arguments filed 7/18/2008 have been fully considered but they are not persuasive. In response to applicant's argument that the device of Macoviak et al is not configured to "hold a tissue wall therebetween", a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed

Art Unit: 3767

invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
